

## **What is READSquared?**

READSquared is the name of the software we are using for our summer reading programs. Follow the link on our website or download the free READSquared App on your mobile device and register to get started reading and logging your time! As with any online program, remember to read the tabs and explore to discover what's available!

Visit our website <https://www.saraclark.michlibrary.org/> for more information

## **How do I log my time if I can't use READSquared or don't have the internet?**

Call the library when we reopen and staff will register you and get you the reading log for the programs you signed up for. When you need to log time each week, you can contact the library and staff can enter your time.

## **How will I get my prizes?**

While the library is closed you can still earn prizes by logging your reading with READSquared. When we reopen, contact the library to see how we are doing prize pick-ups. (The procedure for prize pickup will probably change a few times during the summer, so please be patient)

## **Will we be having performers at the library this year?**

There will be NO in person programs this year, but there are interactive missions for all the programs through READSquared. We have used those extra funds to purchase additional grand prize options!

## **What about Park Party?**

We regretfully have to cancel Park Party this year. We will be having a scavenger hunt as our finale. It will be through READSquared during the first two weeks of August. Participants will be able to do this on their own time, eliminating the need to gather together for a program.
